is veilig onderweg

E313 CLOSED

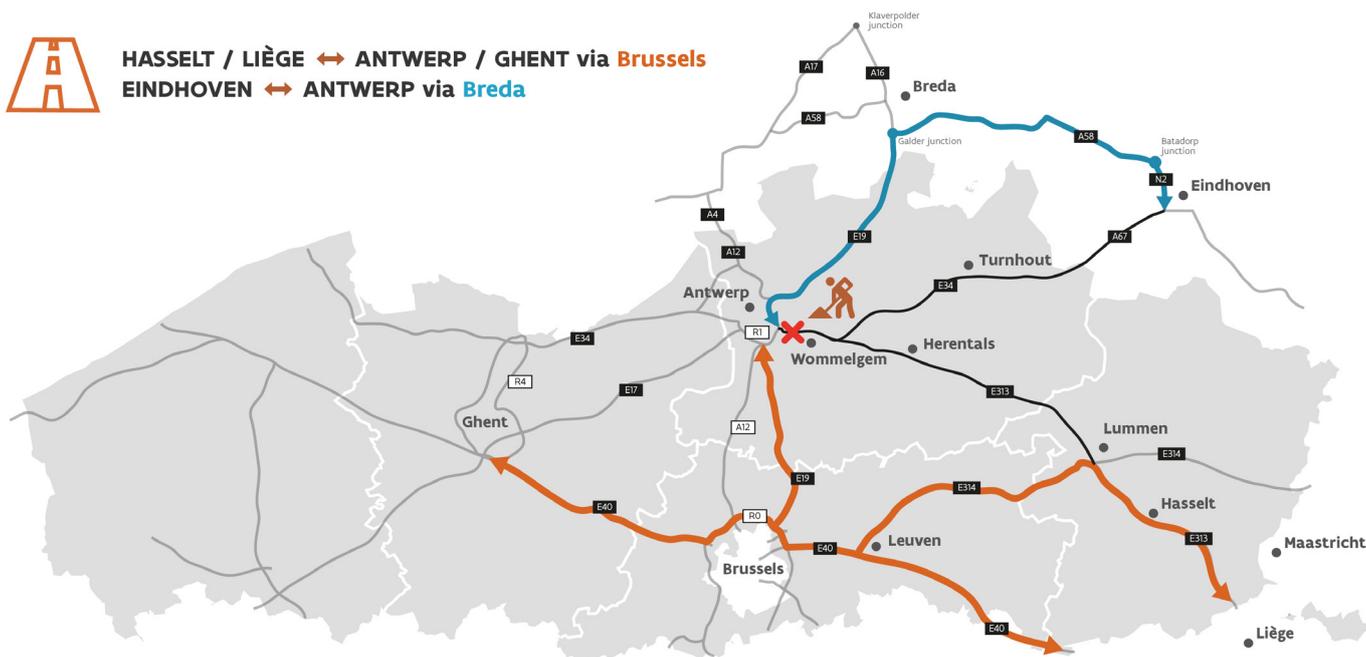

Follow the routes via Brussels or Breda

The Roads and Traffic Agency (AWV) will replace two bridges on the E313-E34 in Deurne (Antwerp). Therefore, **the motorway will be closed from Friday evening, 10 April (8 p.m.) until Thursday morning, 16 April (5 a.m.)**. During those five days, the E313-E34 will be closed in **both directions** between the Antwerp Ring Road (R1) and the Wommelgem interchange [18].

A motorway closure is an exceptional situation causing major traffic disruption. AWV therefore urges people to avoid the area. Anyone who does need to travel by car or a heavy goods vehicle should follow the routes via Brussels or Breda.

HASSELT / LIÈGE ↔ ANTWERP / GHENT via **Brussels**
EINDHOVEN ↔ ANTWERP via **Breda**
